

# Light Duty Enclosed Switch

Economical Light Duty Switches for the Residential/Rural Contractor

The Square D light duty enclosed switch from Schneider Electric is an **economical switch line** for applications that require indoor, light-duty disconnects. These switches are ideal for applications in disconnecting power in well pumps, workshops, hobby rooms, furnaces and garages.

## Features

- Switch has a padlocking feature, which allows the switch to be locked in the “Off” position to prevent operation
- Available in three, single-phase styles for the 120 Vac and 120/240 Vac applications with a 30 A maximum rating
- Designed with a rugged housing and are equipped with top, bottom and side knockouts for ½ in., ¾ in. or 1 in. conduit connections
- UL listed and CSA certified

Make the most of your energy<sup>SM</sup>
