

To AC Micro-Grid Disconnect (Line)

Ground (Green) Line (Black) Neutral (White)

Ground (Green) Line (Black) Neutral (White)

To Sun Bandit Water Heater (Load)

Note:

- There is no ground wire connection point within the monitor. The ground wire will pass through and continue with the other conductors.
- The Line conductor will connect on corresponding terminals of the Line and Load sides of the monitor as shown.
- A spliced segment of Neutral wire will be connected on the Line side of the monitor only. The Neutral wire will continue from the splice point to the Load.
